### **What are we going to do?**

That is up to you. To get started, we'll share an interesting story from “TED.com” .  
TED.com is a public service to promote the spread of good ideas.

Our desire is to help you grow your business and to link you with the resources needed  
to make that happen.

Bring your ideas, your needs, your entrepreneurial spirit. And, of course drink coffee.

**No Cost** to attend compliments of **Grounds for a Better World**.
